

STELVIO

GIULIA

As the performance badge of an automotive marque steeped in racing tradition, the Quadrifoglio is more than an emblem or piece of history: it is a legend. Seen for the first time at the Targa Florio road race in Sicily, it was the hand-painted symbol of luck that pushed Ugo Sivocci in 1923 from his eternal second place finish to his first Alfa Romeo victory. After an unfortunate turn of events that took Ugo's life on the track, Alfa Romeo commemorated the engineering, expertise and unwavering dedication to performance with a white triangle and a green four-leaf clover on all of its high performance vehicles. Forged through the risk and courage to design something greater than ourselves, it leaves nothing to chance and everything to the drive of the Italian spirit.

Defined by Origins

TWO SIDES OF ALFA ROMEO.

A LEGEND PREVAILS.

BUILT TO CONQUER.

Driven by Vision

In the world of performance, excess can be the greatest enemy, and therein lies the remarkable feat in the crafting of Giulia and Stelvio Quadrifoglio. "Necessary beauty" became the final word for every sculpted line, curve and feature, which create vehicles final product uniquely impactful. A diligent use of the highest quality aluminum and real carbon fibre embodies the Alfa Romeo philosophy where every aesthetic feature, from the hood air vents to rear spoiler, serves an actual performance purpose while demonstrating a truly Italian design.

Driven by Origins

POWERFUL CHARMS.

GIULIA 

STELVIO 

Driven by Passion

ON EVERY ROAD
WE ARE OUR OWN COMPETITION.

Defined by Vision

ENTERING A PILOT'S
STATE OF MIND.

Performance, precision and strength are immediately transferred to the hands that wrap around the race inspired specific Quadrifoglio steering wheel*. Perfectly stitched together, the leather and Alcantara® provide technical comfort and luxury. The carbon fibre inserts, red push-button start and all-aluminum steering mounted paddle shifters put the Quadrifoglio racing spirit front and center, where they belong.

* Specific Quadrifoglio steering wheel is optional

2.9 V6 Bi-Turbo Engine

Driven by Vision

NUMBERS REVEAL A PASSION
THAT BURNS FROM WITHIN.

510_{HP}
(375 kW) at 6.500 rpm

600_{NM}
between 2.500 and 5.000 rpm

Driven by Vision

The 100% Alfa Romeo 2.9 V6 Bi-Turbo engine is the heart that powers the Quadrifoglio spirit. Engineered from a single piece of aluminum, the engine block is the base for an architecture that provokes exceptional performance. Thanks to its uncharacteristically lightweight nature, the engine provides unrivaled power with surprising efficiency through the Alfa™ Cylinders' Efficient Management (CEM). Achieving infamy on tracks around the world while crafting an engine that urns to be driven is the product of a passionate know-how that shapes the entire culture of Alfa Romeo.

Driven by performance

EXCITEMENT IN EVERY TURN.

The Alfa™ DNA Pro lets the driver match the moment with driving mode that suits it best, instantaneously adapting, optimizing and unleashing the prowess of the Quadrifoglio.

RACE

Disables the stability and traction controls, maximises performance and enhances the exhaust sound for sport driving on track.

DYNAMIC

Modifies engine shift mapping for sharper throttle response, delivers enhanced steering feedback and more reactive braking for ultimate sport handling.

NATURAL

Torque and suspension are calibrated for maximum efficiency and comfort for daily driving.

ADVANCED EFFICIENCY

Engineered to maximise fuel efficiency and reduce emissions with functions like sailing and cylinder deactivation. The most suitable for low grip conditions.

Driven by performance

POWERFULLY UNDER CONTROL.

1 | AERODYNAMICS

All vehicles worth of the Quadrifoglio badge are the result of endless hours of wind tunnel testing to perfect aerodynamics. Giulia features the exclusive Alfa™ Active Aero Splitter, a moving carbon fibre appendix integrated into the front lower fascia which automatically adjusts to improve aerodynamics and downforce to optimise grip and stability at any speed.

2 | ALFA™ LINK SUSPENSION SYSTEM & ALFA™ ACTIVE SUSPENSION

The all aluminum Alfa™ Link Suspension System interacts with the intelligent Alfa™ Active Suspension to ensure excellent dynamic driving behavior and precision handling. The front suspension features a double-wishbone system keeps the wheels perfectly perpendicular to the road. The rear suspension with its Multilink system with four and a half links guarantees the best of both worlds between lateral grip and comfort.

CHASSIS DOMAIN CONTROL (CDC)

As the brain of all the systems, the CDC's function is to monitor and analyze road conditions and react immediately by changing the vehicles behavior when needed. The CDC takes real time information from all the onboard systems and instantly transforms the data into a powerful driving experience.

3 | INTEGRATED BRAKE SYSTEM (IBS)

This innovative electromechanical system combines the stability control and brake system. Not only allowing a significant reduction in weight, this device optimizes the feeling of the brake pedal, guaranteeing an instantaneous response.

4 | TRANSMISSION

The trigger-like speed of the new generation 8-Speed automatic transmission changes its personality based on the selected driving mode. Experience the apex of its quickness and performance in Race mode, it takes just 150 milliseconds to shift from one gear to another.

5 | CARBON FIBRE DRIVESHAFT

The carbon fibre driveshaft delivers tangible benefits for both daily and performance driving. It weighs 7 kg only and its low torsional spring rate generates great fuel efficiency and exceptionally reactive acceleration for a smoother and more enjoyable drive.

6 | ALFA™ ACTIVE TORQUE VECTORING

Alfa™ Active Torque Vectoring allows for an optimal torque distribution on the rear two half-axes thanks to the two electronically controlled mechanical clutches. It delivers the best traction and control even at high speeds and on all types of road surfaces.

50 / 50
PERFECT BALANCE

There can be no compromises on the road to greatness, it all comes down to choices. The overall lightness is a product of the world class materials used throughout the entire vehicle: high-strength steel, carbon fibre and aluminum are all distributed decisively that puts Quadrifoglio in a class of its own with ideal 50-50 weight distribution for both Giulia and Stelvio. All this works impeccably with its suspension, offering peerless agility and precision so the driver can feel all 510 horses running in unison.

Driven by performance

Stelvio Quadrifoglio has mastered the art of what you need, when you need it. The Q4 all-wheel-drive features an Active Transfer Case, delivering both the satisfaction of all four-wheels gripping the road, and at the same time the performance of a rear-wheel-drive. The Q4 system distributes torque on demand, exactly when, where and how it's needed most. It sends up to 50% of the torque to the front-wheels, increasing stability and enhancing grip, to guarantee the one of a kind Alfa Romeo driving pleasure. The synergy between performance and stability, guaranteed by the Q4 system, takes the thrill of driving around a hairpin bend, on an unsurfaced track, a snow-covered straight or when cornering in driving rain, and transforms it into an enjoyable routine drive.

Defined by Performance

THE SOUND OF SOMETHING LEGENDARY.

Akrapovič exhaust system is optional.

Driven by Courage

PERFORMANCE IS WOVEN
INSIDE EVERY FIBRE.

Defined by Excellence

SHAPED BY EXPERIENCE
TO DOMINATE THE CURVES.

Driven by Excellence

ENCOMPASSED BY SOUND.

Surrounded by power, Quadrifoglio drives all the senses to be immersed in a world of remarkable performance. 900 Watts are channelled to 14 Harman/Kardon® speakers* and one subwoofer that compliment the tenacity of its engine with pleasure of your own soundtrack.

*Harman/Kardon® sound system is optional.

Driven by Excellence

DETAILS THAT COMMAND ATTENTION.

To wear the Quadrifoglio badge comes with record-breaking expectations and high-performance sensations, such as the Carbonshell Sports seat by Sparco*. The guaranteed comfort and control for both driver and passenger with hand stitched real leather and Alcantara® seats are elevated by a race-like experience that demonstrates performance lies in the details.

*Carbonshell sport seats by Sparco are standard in both the Giulia QV and the Stelvio Q.

Driven by Excellence

WHEN AN EVOLUTION OF BEAUTY

MEETS A TRADITION OF PERFORMANCE.

Driven by Emotions

THE SAME STREETS WITH A DIFFERENT ATTITUDE.

Defined by Emotions

OUR SKILLS GO BEYOND THE FINISH LINE.

GIULIA 

Defined by Attitude
WELL-APPOINTED.

The new 8.8" Multitouch display is as intuitive and reactive as the rest of Quadrifoglio's performance features. Organising apps and widgets has never been quicker than with the touchscreen or rotary dial. The Alfa™ Connect System features Apple CarPlay™ integration, creating a seamless connection for iPhone users, and Android Auto™ support, which ensures great connectivity for all smartphones with the Android operating system. The driver can also visualize important driving data, warnings and notifications without ever shifting their eyes thanks to the 7" TFT display.

Driven by Attitude

A HANDS ON APPROACH.

Craftsmanship comes live in the redesigned center console through cutting edge technology and the remarkable use of the finest materials. Additional storage space and wireless charger add functionality to a supremely-crafted tunnel that is an extension of the rest of the interior. Real carbon fibre and world class leather accompany the driver's hand throughout as it dominates the road.

COMMAND

Manage and move through all of the various applications and widgets. Scroll through and change performance features, climate and connected service without ever having to touch the screen.

PREMIUM MULTIMEDIA
SYSTEM ROTARY PAD

CONTROL

The leather-wrapped gear shifter delivers comfort and power as you change through gears. Highlighted by striking Italian accents, the redesigned console is the performance hub of the interior.

LEATHER-WRAPPED SHIFTER

RECHARGE

The new wireless charger is convenient and ever ready for those who are always on the go. No more cords and cables. Just place your smartphone in the charging area and you'll be at 100% in no time.

WIRELESS CHARGER

STELVIO 

Defined by Attitude

AN UPGRADED STATE OF DRIVING.

Within every interior of Quadrifoglio is a powerful harmony of man and machine that comes together in magnificent display of Italian craftsmanship. The use of aluminum, carbon fibre, leather and Alcantara® create an enticing invitation to experience the premium nature of performance. Touch the leather wrapped dash with a distinctive contrasting stitch, enjoy the warmth of heated seats all the while holding tight to the lightweight steering wheel with carbon fibre inserts. Stelvio also maximizes its SUV design with 525 litres of fully usable space adding function to its alluring form.

8.8" MULTITOUCH DISPLAY AND PERFORMANCE PAGES.

Upgrade your connection with the 2020 Quadrifoglio. The 8.8" multitouch display is a visual centerpiece of the cockpit. The easy-to-navigate system allows the driver to use both the touch screen and rotary dial to organize, zoom or change apps. Thanks to the Alfa™ Connect system with Android Auto™ and Apple CarPlay, the massive display can become a mirror of your smartphone to easily stay connected. The system also features new Performance Pages giving the driver direct access to unique performance data and information like torque management, temperatures and drag race timers. These numbers may not mean something to everyone, but they mean everything to Alfa Romeo.

Defined by Emotions

UNMISTAKEABLE ATTRACTION
DOESN'T ALWAYS STAY IN THE LINES.

Driven by Emotions

LEAVING OUR MARK.

Driven by Technology

THE STRENGTH TO BE POWERED BY SOMETHING MORE.

Alfa Romeo Quadrifoglio is a cornerstone in the automotive world for its uniquely racing centric history and philosophy. In a moment when technology seems to go beyond the power of human intuition, Alfa Romeo has worked diligently to do the opposite. Through the use of leading technologies and cutting edge automated driving systems, Quadrifoglio enhances the driver's ability reaching the second level of autonomous driving. By putting passion and pleasure at the forefront of every millisecond behind the wheel Alfa Romeo has created a safer and more exciting driving experience.

ACTIVE BLIND SPOT ASSIST

There are portions in the rear of the vehicle that are commonly known as a blind spot, which is when another vehicle is there it is temporarily invisible to the side mirrors. The Active Blind Spot Assist continuously monitors the rear blind zones on both sides of the vehicle, alerting you when you are attempting to move into a lane that is already occupied. In addition to the alert, the system also delivers a steering correction to help avoid collisions with vehicles hidden in your blind spot.

LANE KEEPING ASSIST

Lane Keeping Assist alerts the driver if the vehicle is straying out of its lane and provides a corrective action to help automatically correct the vehicle's path and direct it back into the lane.

HILL DESCENT CONTROL

This system maintains the vehicle at a constant speed while descending by automatically operating the brakes. In this way, stability and safety are ensured even in conditions of poor grip on steep slopes.

FORWARD COLLISION WARNING WITH AUTONOMOUS EMERGENCY BRAKE

The Autonomous Emergency Brake notifies the driver with visual and audible alerts when it senses a potential frontal impact. If the driver doesn't respond, and the risk of a collision continues, the vehicle can automatically brake and bring the vehicle to a full stop.

PARK ASSIST

The system uses a camera mounted on the rear bumper and front and rear sensors to notify you when obstacles are in your path. Audiovisual indicators and the dynamic grid on the display help you to avoid accidents during parking.

AUTOMATIC HIGH BEAM

Outdoor light can change quickly, whether in a tunnel or because of sudden adverse weather or sunset. The Automatic High-Beam Headlamps automatically and quickly switch from high beams to low beams depending on lighting conditions.

DRIVER ATTENTION ASSIST

During long drives some times it is necessary to take a break. The Multi-Touch Display program monitors the movements of the vehicle and the drowsiness of the driver and warns him or her through alert signals and the symbol of a cup on the TFT display and encourages them to pullover and rest.

ACTIVE CRUISE CONTROL

The Active Cruise Control allows you set your the cruising speed of your vehicle. It also automatically corrects itself when the speed changes or when the safe distance between two vehicles isn't respected.

The CO₂ and fuel consumption values are determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153.
The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The homologation values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, the condition, use and equipment of the vehicle.
The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with the subsequent configuration depending on equipment selected and/or size of tires selected.
The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network.
In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the documents accompanying the vehicle.
In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each country.

Driven by performance

FEEL THE PASSION TO GO FURTHER.

Dream of tackling a corner at the perfect angle or perfectly switching gears on a straightaway to reach top speed at the perfect moment? Thanks to Accademia di Guida Alfa Romeo, all of this can come true, and much more. Discover the indescribable feeling of having an entire competition track to yourself with some of the world's best pilots teaching you all the in's and out's, headed by the incomparable Andrea De Adamich, former Alfa Romeo racing driver.

There are five courses, each named after some of Alfa Romeo's most iconic vehicles:

- CORSO VELOCE
- CORSO QUADRIFOGLIO
- CORSO WTCR HIGH PERFORMANCE
- CORSO TT - TRACK & TERRAIN
- CORSO Q4 - ICE & SNOW

In each of these courses, participants won't just learn how to drive fast, but also how to dominate the road. Exciting, engaging and full of adrenaline, you'll have the opportunity of a lifetime to drive an Alfa Romeo and push it to its limits, with all the safety and professionalism of an organization with 30-years of experience in driving courses.

HISTORY

WHAT STARTED AS LUCK BECAME A TRADITION OF EXCELLENCE.

Alfa Romeo was born in 1910, but the Quadrifoglio came to life in 1923 and took on a life of its own. Ugo Sivocci was a part of the Alfa Romeo racing team, which at the time had the world's best drivers. The competition was difficult, and Ugo struggled to find the checkered flag in first position. Before the grueling Targa Florio, a dangerous road race through the mountains of Sicily, Ugo decided to paint on a four-leaf-clover, the Quadrifoglio, as many fighter pilots had done on their planes. As fate would have it, he narrowly crossed the line first, and won his first race, but his racing career would tragically come to an end.

Ugo passed away months later in an accident in Monza and to commemorate him and his passion for Alfa Romeo, the brand decided to take the hand painted symbol and transform it into an badge of prestige and performance. The Quadrifoglio's history is steeped in racing lore, claiming victories at the first ever Grand Prix World Championships in 1925, the first two modern Formula One World Championships as well as two more world titles in 1975 and 1977. The same drive for excellence emerges in Alfa Romeo Quadrifoglio's DNA, bringing a rich history to the present as it accelerates to a new future.

WHERE HISTORY AND FUTURE MEET.

Lines that have changed the way we imagine design. Cars and drivers who set the pace for competition on the track. Technologies that have redefined the standards of innovation. Beauty, speed, robustness and steady production. All of this is Alfa Romeo's legacy. It's driving passion. It's evolution. It's our heart.

La Macchina del Tempo, Museo Storico Alfa Romeo will guide you through this extraordinary all-Italian story. Six floors of history binding past, present and future and celebrating the achievements of an extraordinary brand, its vehicles, technology and style.

DESIGN

**BUILDING ON WHAT
WE KNOW, TO CREATE
SOMETHING NEVER
BEFORE SEEN.**

Crafting a vehicle worthy of both the Alfa Romeo logo and Quadrifoglio badge is a monumental undertaking. The precision necessary on the road is, at the very least, exponentially greater during the design process and manufacturing. In 2012, the Centro Stile, the epicenter of design for FCA, gained access to the unbelievable treasure of Alfa Romeo's Heritage. Their challenge was straightforward yet complex. How can Alfa Romeo bring their timeless sense

of emotion, passion and power into the 21st century? From that moment forward, the design process for Giulia and then Stelvio Quadrifoglio began to take their physical shapes. Inspired by a rich history of automotive excellence and driven by the desire to create vehicles that deliver on the long standing performance promise of Alfa Romeo, Quadrifoglio officially carries the torch of the perfect blend of aesthetic beauty and a masterpiece in engineering.

LIMITED EDITION

NRING 

THE CORONATION OF A NEW ERA OF FAST.

Special moments mark history, and we have made it our job to make sure they are remembered forever. Through a series of limited edition vehicles, Alfa Romeo has commemorated two extremely important thresholds in the legacy of Quadrifoglio. First, in 2016 Alfa Romeo Giulia Quadrifoglio, followed by its counterpart Stelvio Quadrifoglio did what at the time was unthinkable: break the single lap record at the infamous Nürburgring track in Germany. After sending shock waves through the entire automotive world, Alfa Romeo decided to immortalize the epic feat and celebrate the 108th anniversary of Alfa Romeo by creating 108 numbered vehicles

from both Giulia and Stelvio Quadrifoglio. Characterized by its one-of-a-kind grey and dark accents, a single moment became a collector's item. 2018 marked the return of Alfa Romeo in the pinnacle of motorsport as the Alfa Romeo Racing F1 team. Partnering with the Sauber, Alfa Romeo returned to where it belongs with an unmistakable look and style all its own. To celebrate this milestone, Alfa Romeo launched the limited Alfa Romeo Racing edition for Giulia and Stelvio Quadrifoglio. With only 50 units produced, these celebrative cars feature 520 hp, the exclusive Akrapovič exhaust system and the specific Alfa Romeo Racing livery.
